ADD TO CART: How the World Shops Online

$82.6B | 9.8M | +13

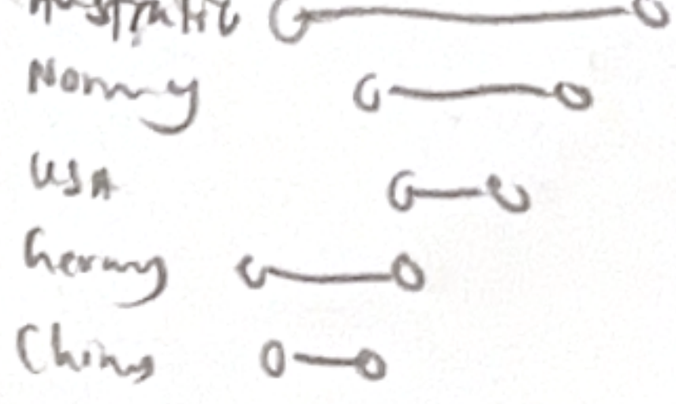

From global habbits to Australian wallets: who buys online, when, what and from where

1. The Global Chart

Online shopping is near-universal in some countries and rare in others. Where does Australia sit?

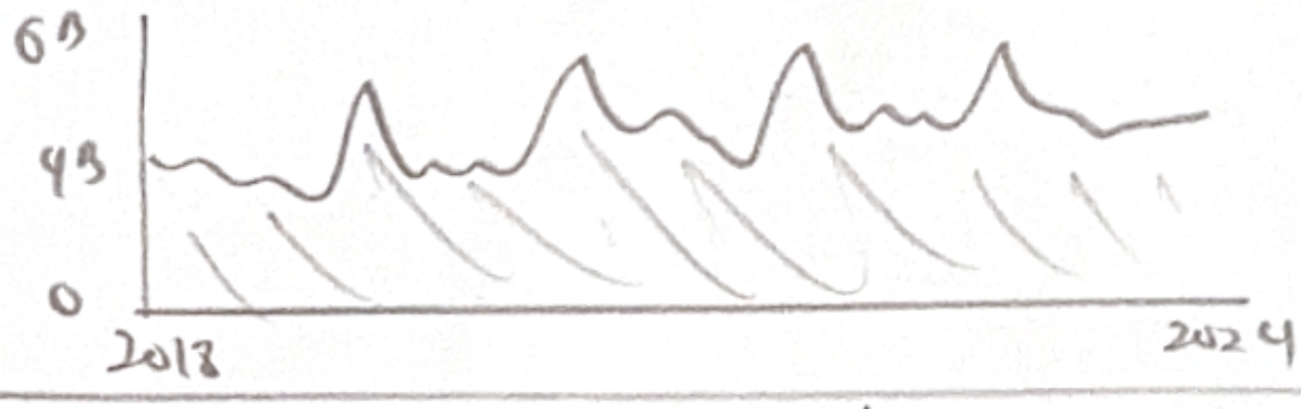

2017 → 2021 Change

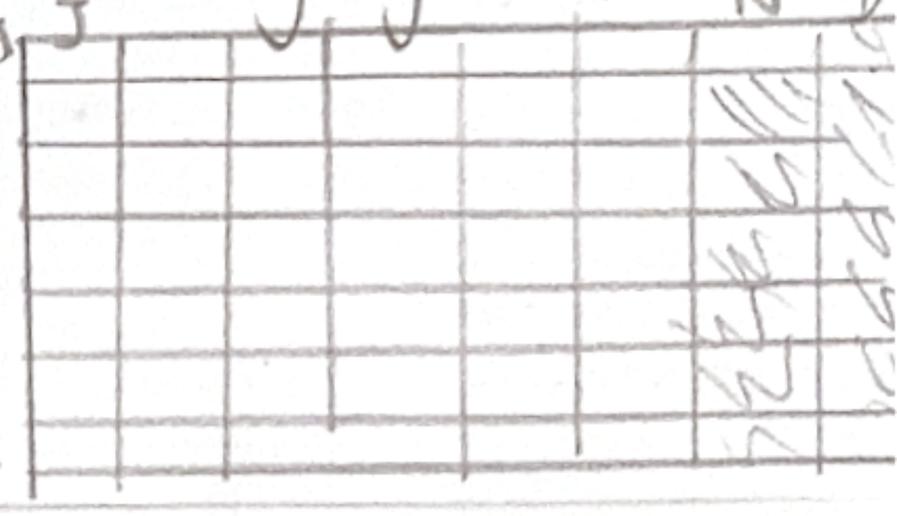

2. Australia logs On

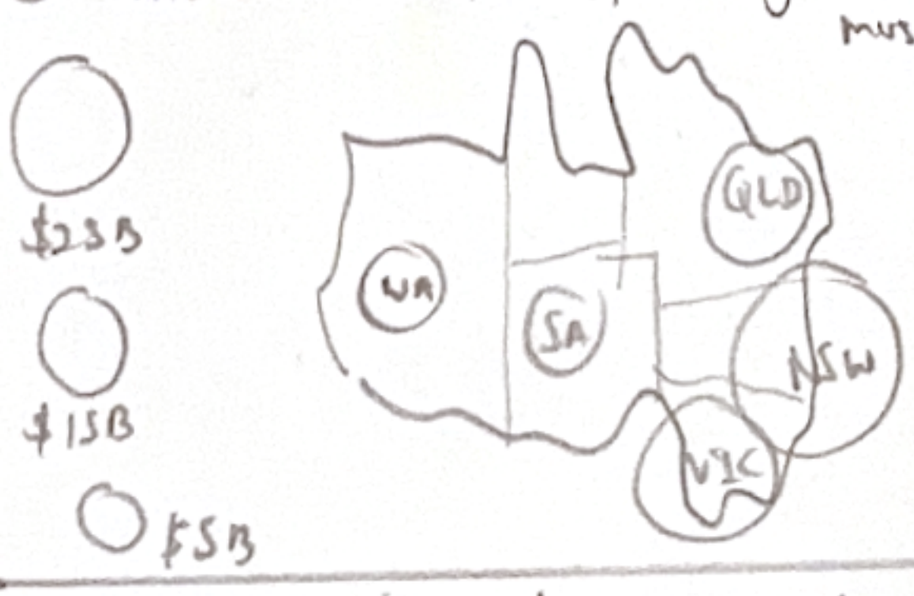

A decade of steady growth, then COVID pushed online sales into a new normal

Seasonality by Month

3. Where in Australia | The big states spend the most but the per person picture changes

Spend per person

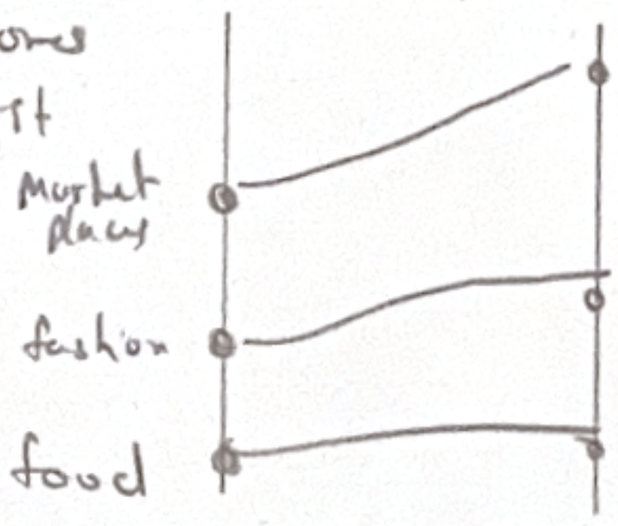

4. What we buy and Who buys it

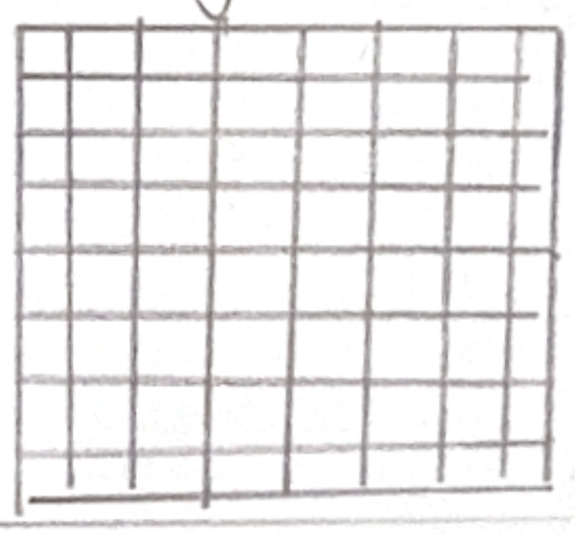

Marketplaces dominate, department stores grow fastest and millennials spend most

2024 → 2028

Share by generation

5. Beyond Our Borders

Australians buy from overseas
Where from and why?

Reasons vs barriers
